RUSTICA the look, feel & elegance of veneer without the cost.

Introducing RUSTICA, a new range of textured high pressure laminates and 18mm E1 – HMR prefinished board.

Reflecting current trends for strong and distinctive surface structures, *RUSTICA* captures the natural appeal of genuine timber, with it's finely nuanced and distinctive tactile finish, adding something inspired for the modern interior.

Its striking and varied gloss/matt surface texture, incorporating fine structure and beautiful colour captivates the observers eye. Perfectly engineered, it offers looks that cannot be achieved with veneers, including perfect grain, consistency in colour, greater ease of fabrication and a higher level of usability than conventional wood veneers.

RUSTICA offers the designer an economical and maintenance free alternative to expensive veneers.

With 15 decors reflecting current Australian colour trends, we are certain you will find a colour to suit your design.
