

# Grass - Selling Points

## Unigrass Drawer Slide System

### Feature:

#### Design

Benefit:

Elegant surface finish inside and out.

**USP**

High-quality abrasion-resistant, easy-to-clean coating.

No adjusting mechanisms to disturb the optics.

### Feature:

#### Wide range of options - differentiation

Benefit:

Unigrass Zargen slides come in 5 heights, in 2 colours and as a regular or full extension.

**USP**

This gives the user plenty of scope in terms of differentiation and possible applications.

### Feature:

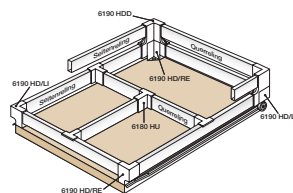

#### Pull-outs with same installation width

Benefit:

Grass is the only manufacturer who offers a pull-out (type 6034) with the same installation width as the Zargen slide. This means that the same bottom panel dimensions can be used, which cuts down the number of special sizes required.

**USP**

Pull-out railings are also available.

## Unigrass Drawer Slide System

### Feature:

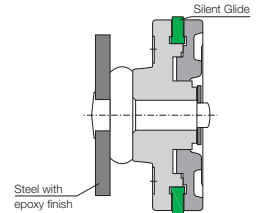

#### Silent glide roller

Benefit:

Ensures very quiet running of the drawer.

Running performance which can be perceived but not heard.

### Feature:

#### Double stop

Benefit:

The stay-open feature in the extended position provides added convenience when putting items away the drawer. In addition, the double stop prevents the drawer from falling out.

### Feature:

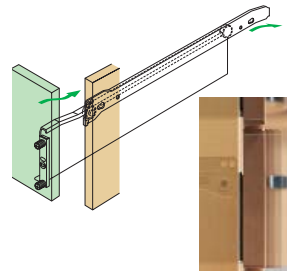

#### Self-closing feature

Benefit:

60mm closing range with 20 mm parallel closing action.

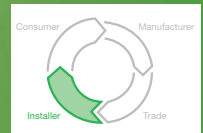

Convenient and reliable drawer closure.

## Unigrass Drawer Slide System

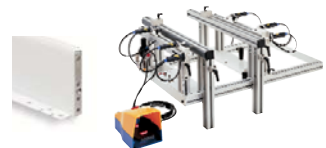

**Feature:** **Roller protection**  
**Benefit:** If the drawer is set down on the back panel the roller is protected.

**Feature:** **2-dimensional adjusting facility**  
**Benefit:** Height adjustment of front with eccentric screw requiring less time to achieve minimal reveals.  
Side adjustment by means of slot.  
No punching of Zargen side.

**Feature:** **Efficient handling for the cabinetmaker**  
**Benefit:** The version for manual screw mounting is ideal for cabinetmakers and small series manufacturers. Grass offers the pneumatic Zargen mounting device for these users.

**Feature:** **Efficient handling for OEMs**  
**Benefit:** Automatic assembly versions with spikes and dowels ensure the cost-effective manufacture of large series. Grass offers the Zargen assembly press for these users.
