> Aluminium Doors

Tekform's Aluminium Doors are precision cut using only the highest quality aluminium and safety glass. Aluminium doors perfectly allow you to reflect modern trends or create interesting feature displays

- Our Aluminium doors are made from the highest quality material.
- Doors are available in 2 attractive finishes: Satin Aluminium & Brushed Stainless.
- Short lead time of 2 weeks.
- 4 Finishes of safety glass to choose from: Frosted, Clear, Starphire White & Vinyl Backed Mirror.

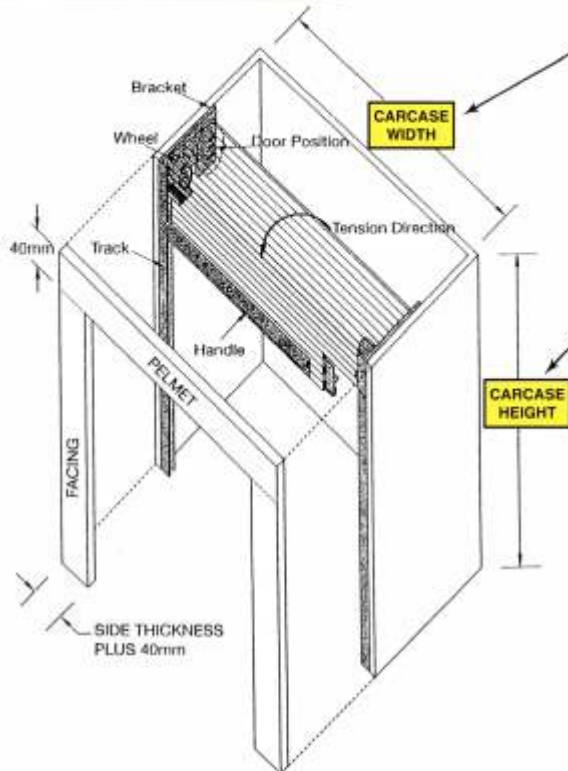

Belle Roller Doors

Belle Roller Doors are ideal for all your storage requirements, concealing and securing appliances and valuables. Belle Roller Doors can be fitted with locks to provide additional security in the study or office, and an electric motor can also be fitted and operated by remote control.

- Conceal appliance cupboards, glide up and down, so the space in front of the storage area isn't compromised by an open door
- Give an elegant finish to any cabinet and are available in a wide range of laminates, vinyl and timbers or MDF.
- Can be manufactured in any size up to 2mtrs X 2mtrs
- Simple to fit in five easy to follow steps.

LUMINA – Decorative Panels

Lumina is a 16mm, E1 rated, decorative high gloss medium density fibreboard (MDF) panel. Utilizing new technology which allows a PET (polyester) gloss film to be laminated onto a wood based substrate. Lumina provides a high scuff and UV resistant surface which offers high durability whilst maintaining colour integrity. The reverse side of the board is colour matched in a durable matt melamine finish providing an improved visual effect to joinery doors and panels over commonly used white backs.

- Internal applications on domestic or commercial projects
- Durable laminated PET (polyester) gloss film
- High scuff and stain resistance
- Resistant to chemicals and water vapour
- UV stable
- 9 designer colours available
- Sheet size 2655 x 1030mm
- Substrate – 16mm MDF – E1 rated
- Environmentally friendly

Appearance

- Solid colour
- Timber decors
- Metallic decors

Applications

- Domestic & commercial joinery doors & panels
- Shop fitting

Senosan Acrylic Elements Doors

The high gloss film from Senosan has made a name for itself with an unmistakable, outstanding surface quality and depth of gloss effect comparable to none.

Scratch resistance of 0.8 N for the light colours; comparably to direct lacquering and considerably better than the normal 3 dimensional membrane press foils, micro-scratch hardness tested to DIN 53799-4.15.

Characteristics

- High gloss acrylic foil
- Pressed onto 18mm MDF panels
- Bonded using PUR glue line
- Single and Double sided panels
- UV resistant
- Low distortion levels
- Recyclable
- Matching 0.9mm Edgetape
