> Lago Sinks & Basins

The Tekform high quality vitreous china sinks are perfect for kitchens, bathrooms and toilets. Vitreous china sinks bring classy elegance to any room as the coating is shiny and non-porous, making the vitreous china sink a visually pleasing addition to your home.

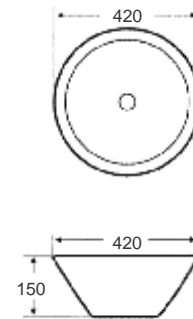

The appeal of a vitreous china sink (vitreous in sheen) is its ability to withstand harsh chemicals with a high gloss finish making it stain resistant.

Tekform have a vitreous china sink to suit all areas and to blend with any decor.

> Lago Sinks & Basins

The Tekform range is manufactured in two pieces, meaning the fascia and bowls are drawn separately and then welded together. This results in a more functional and stronger sink, with flatter and deeper bowls. Basket wastes are standard with all models together with sound-proofing to the bottom of bowls and drainer.

All models are available in left and right hand bowl configurations.
